How To Find Peer Reviewed Articles

In case you were wondering how to search for Peer Reviewed Articles, here's a helpful tip:

- When you go the GCU Library online (http://my.gcu.edu/academics/library/pages/home.aspx), you get the "Welcome to the Library Website."
- Be sure to click the "Please login to MyGCU by clicking here." This will allow you to access the dabatases.
- Click on "Find Journal Articles" under Research & Resources.
- On the Databases page, select the "Education" category.
- You will find a list of education databases to search. I'm a fan of ERIC, but know that there are other valuable databases at your fingertips on that page. Feel free to explore!
- Enter your search criteria and limit your results by checking the "Scholarly (Peer Reviewed) Journals" box.
- Viola! Peer reviewed articles. :)

Let me know if you have any questions or need help!
